

Statement of Energy Code Compliance

Address: _____ Phone Number: _____

Contractor/Owner Name: _____ Permit # _____

I hereby attest that I will be using the following method of compliance for the **HVAC duct sealing** inspection as required by Section R403.3.3 of the current Virginia Energy Conservation Code (VECC):

I will perform a Rough-in duct leakage test

I will perform a Post-construction duct leakage test

Note: A written copy of the results shall be signed by the party conducting the test and provided to the code official as stated in Section R403.3.3 of the current VECC to the code official.

I hereby attest that I will be using the following method of compliance for the **Building Air tightness** inspection as required by Section R402.4.1.2 of the current Virginia Energy Conservation Code (VECC):

I will perform the blower door testing as stated in Section R402.4.1.2. and submit a written report of the test results signed by the third party conducting the test to the Building Official.

Note: Compliance with this section requires the blower door test results to be submitted on a testing company supplied form with verification that the company is using raters certified by an approved agency. Compliance with this section of the VECC shall be certified.

NOTE: The 2021 codes require blower door testing certification prior to the Certificate of Occupancy.

An insulation inspection must also be scheduled either at the same time or at a later date. All trade rough-in inspections must be completed prior to scheduling the insulation inspection.

I will utilize a nationally recognized energy efficient program in accordance with VRC Section N1101.8 and submit this documentation before the Final Building Inspection is scheduled.

Note: Outdoor air shall be provided as specified in VRC N1103.6 and M1505.
